Which is the best energy storage provider for the Apia grid

Overview

Are battery energy storage systems essential grid infrastructure?

Battery energy storage systems (BESS), once seen as promising add-ons to renewables, are now considered essential grid infrastructure—tested during blackouts, storms, and surging demand curves. One of the clearest trends shaping this change is the prioritization of availability over capacity.

Why did ABB invest in gridbeyond?

GridBeyond's platform will enable real-time energy optimization, demand-side response participation, and access to new revenue streams in global energy markets for ABB's BESS deployments. Last year, ABB made a strategic minority investment in GridBeyond to expand its energy storage solution portfolio. Collaboration with Tallarna.
