# **Which solar container lithium battery pack is good in Rotterdam the Netherlands**

## Overview

---

Why is SK TES launching a new battery recycling facility in Rotterdam?

The newly established Rotterdam facility signifies a significant investment in meeting the needs of the electric vehicle (EV) and battery production markets. Septem, Rotterdam, NL. – SK Tes, a global leader in battery recycling solutions, is proud to announce the opening of its state-of-the-art battery recycling facility in Rotterdam.

What are the transport rules for lithium-ion batteries in the Netherlands?

The following rules apply to the transport of lithium-ion batteries within the Netherlands: ADR: ADR (Accord européen relatif au transport international des marchandises dangereuses par route): Transport must comply with this European regulation, with specific requirements for packaging, labeling, and documentation.

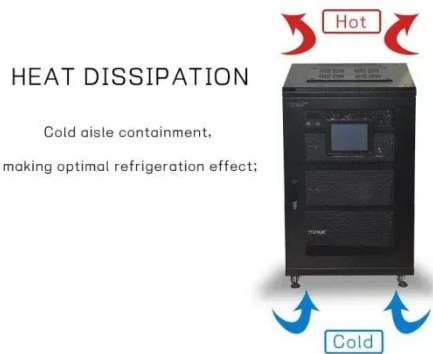

Where are EV batteries recycled?

Waste EV batteries and recalled batteries will be safely processed at the SK Tes battery recycling facility in Rotterdam. As a part of the battery recycling process, SK Tes extracts black mass—an intermediate product containing rare metals such as lithium, cobalt, and nickel—that is fed back into the battery supply chain.

What is a lithium safety container?

Discover the ultimate in lithium battery safety with our innovative lithium safety containers. Designed to provide unmatched protection, our containers offer peace of mind for the safe storage and transportation of lithium batteries. Explore our range now for industry-leading safety solutions.
