

**Which station in Harare has more power exchange cabinets**

## Overview

---

Will Zimbabwe re-power Harare power station?

As of February 2019, the Zimbabwe Power Company (ZPC) was set to commence the re-powering project for Harare Power Station (generator number 2) in the first quarter of 2019 to add 60 MW to the national grid and cut imports. ZPC secured a US\$176 million loan from Afreximbank.

Where is Harare power station?

Harare power station is an approximately 90-megawatt (MW) coal-fired power station in Harare province, Zimbabwe. A repowering project is proposed. The undated satellite photo below shows the plant in Kopje, in the Workington area of the capital city along Coventry road. Your browser is not compatible with Google Maps v3.

How much power does Zimbabwe have?

Zimbabwe has 2,771MW installed capacity, 1,795MW operating capacity and peak demand of 1,693MW. The Zimbabwe Power Company (ZPC) operates a generation fleet comprising four thermal power stations that collectively supply electricity from four thermal and one hydro power stations.

Who regulates energy in Zimbabwe?

Zimbabwe belongs to the Southern Africa Power Pool and is also a member of the Regional Energy Regulators Association through the Zimbabwe Energy Regulatory Authority (ZERA). The Department of Energy Conservation and Renewable Energy in the MoEPD is SACREEE's National Focal Institution.
