

EQACC SOLAR

Wholesale lv switchgear panel in Brisbane

Overview

Where can LV switchboards be used?

We supply the highest quality LV switchboards to a wide range of projects covering various sectors. Including Hospitals, Shopping Centres, Commercial and Apartment Buildings, Woolworths, Schools and many more.

What types of LV switchgear are available?

The LV switchgear is offered in Form 1 through to Form 4b, front or rear connected, in either single or double sided arrangements. It is suitable for both indoor and outdoor applications with IP ratings from IP43 up to IP56. For more information on our LV Switchgear, contact us for a brochure or data sheet.

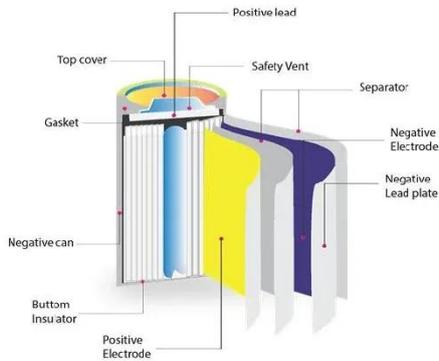

What is low voltage switchgear?

Low Voltage Switchgear or switchboards are generally used for either kiosk substation or indoor/chamber substation applications including upgrades and new installations. Various LV switchgear types and configurations are available, they are made to utility specifications or to customer specifications for private networks.

Who are the leading switchgear brands?

We work with leading global switchgear brands to deliver quality products that are fit for purpose and are delivered on time. ABB, Schneider, Terasaki and Efen are but a few. The company's strong electrical engineering structure is well supported by a production team that is focussed on reducing lead times for customers.
