

EQACC SOLAR

Wholesale smes energy storage in Singapore

Overview

What is Singapore's largest energy storage system?

In Singapore, we operate Southeast Asia's largest energy storage system. The 326MWh system on Jurong Island supports the country's growing deployment of solar energy, while enhancing grid reliability and energy supply security. Sembcorp Energy Storage System in Singapore.

What is ESS access & how does it work in Singapore?

Led by EMA, the ACCESS programme helps to facilitate ESS adoption in Singapore by promoting use cases and business models. It also looks at securing space, marrying demand with solution, and facilitating regulatory approvals for ESS deployment. Singapore's First Utility-scale Energy Storage System.

What is Singapore's first utility-scale energy storage system?

Singapore's First Utility-scale Energy Storage System Through a partnership between EMA and SP Group, Singapore deployed its first utility-scale ESS at a substation in Oct 2020. It has a capacity of 2.4 megawatts (MW)/2.4 megawatt-hour (MWh), which is equivalent to powering more than 200 four-room HDB households a day.

Which countries use energy storage systems?

Present in: Singapore, China, India, UK Energy storage systems (ESS) mitigate the intermittency of renewable energy sources such as solar and wind. They help to ensure a stable power supply by storing excess energy during high generation and discharging when needed.
